

READER 2: The poem can also be used as a jump rope rhyme
 – if you're into that sort of thing.

(Once the poem sheets have been distributed through the audience, CHORUS VOICE 1 leads either the original chorus or a new chorus of younger elementary students in a vocal performance of the poem. If you have rope-jumpers who want to jump along to the rhythm and do the hand motions while they jump, this would be a great addition to the presentation).

CHORUS VOICE 1: One, two, three four...

Piggy, piggy, piggy, (*clap hands once for 4th beat*)

Mister Piggy Flu.

If you come to visit, (*clap hands once for 4th beat*)

Here is what I'll do.

Use a tissue when I sneeze,

Then **throw** it away,

(Mime throwing something on the word "throw")

Wash my hands often,

Use my elbow when I'm **coughin'**.

(Mime mouth to elbow on the word "coughin'")

Always keep my **hands**

(Hold up both hands on the word "hands")

Away from my face.

No rubbing, no **scratching**,

*(Hold up hands like cat claws on the word
"scratching")*

Keep them in their **place!**

(Hold hands down to side on the word "place")

When I feel sick,

Won't act like a **fool**.

(Tap head with hand on the word "fool")

I'll just stay at home.

Won't **come to school!**

*(Shake a finger three times, once each on the
words ("come to school"))*

Piggy, piggy, piggy, *(clap hands once for 4th
beat)*

Mister Piggy Flu.

If you come to visit, *(clap hands once for 4th
beat)*

(Slow down for ending)

I know just what -

Know just what -

Know just what to do!

(Alternate ending, if using rope jumpers):

ALL: FASTER!

Piggy, piggy, piggy, (*clap hands once for 4th beat*)

Mister Piggy Flu.

If you come to visit, (*clap hands once for 4th beat*)

I know just what -

Know just what -

Know just what to do!

ALL: FASTER!

Piggy, piggy, piggy, (*clap hands once for 4th beat*)

Mister Piggy Flu.

If you come to visit, (*clap hands once for 4th beat*)

I know just what -

Know just what -

Know just what to do!

(Keep repeating faster and faster until the rope jumpers are all eliminated).
